experience

Web Developer

- Developed websites following the guidelines provided by the client and/or project manager
- Used numerous web development languages/tools including ASP, PHP, .NET, HTML, DHTML, Javascript
- Created and modified content management systems for existing and new clients' web applications
- Provided technical support for all staff when required, as well as troubleshooting software problems using Linux

Applecore Interactive : St. John's, NL : Oct 2006 - July 2008

Director of Information Technology

- Maintained computer security throughout the business, both interior and exterior surveillance
- Exported dumps of db2k database information to be used in third-party programs
- Upgraded and managed the GFT website, as well as any related materials (Flash productions, presentations, etc)
- Administrated the GFT networks, both the public network (TCP/IP) and the internal intranet (IPX/SPX)

GFT Aerospace Technologies : Gander, NL : June 2005 - Oct 2005

Web Designer / Developer

- Recreated an existing website with an updated look and dynamic components
- Produced material for the Community Access Program (mousepads, flyers, newsletters, etc)
- Created a new database to be used as a backend for the website, as well as the integrated stats tracking program
- Imported data from the old database, and reconfigured the data to be used in the new system

Government of NL : St. John's, NL : Dec 2004 - May 2005

Graphic / Web Designer

- Provided technical support for a team using multiple peripheral devices, software packages, and operating systems
- Designed, scanned, and edited graphics using Adobe Photoshop, Adobe Illustrator, and Macromedia Flash
- Created and implemented relational databases for use with the project parameters, as well as for external use
- Coded major site components, using a number of languages including CSS, ASP, DHTML, SHTML, and JavaScript

Industry Canada : Botwood, NL : June 2003 - Sept 2003

Web Designer / Developer

- Provided technical support and troubleshooting assistance for various computer hardware
- Developed multiple databases (Oracle, Access) for use with various web sites as e-commerce back-ends
- Coded new and existing web sites, using such tools as Macromedia ColdFusion, PHP, ASP, Perl, and DHTML
- Provided technical support for multiple peripheral devices; switched applications from Win2000 to Unix-based servers

Big Kahoona : Mount Pearl, NL : Feb 2003 - Apr 2003

education

Web Site Design & Development

- An 18 month diploma program, completed in consecutive months. Subject areas included web site design, internet and software application programming, practical and theoretical database design, hardware and software support, and customer service
